## Energy Harvesting Europe Awards 2009

Recognising Company Development and Success  
[www.IDTechEx.com](http://www.IDTechEx.com)

The IDTechEx Energy Harvesting Awards recognise company development and success. The award ceremony will be held at the special awards dinner on Wednesday 3<sup>rd</sup> June at Robinson College.

The Awards are hosted by IDTechEx, a leader in providing independent global research and analysis on the development and application of energy harvesting and storage.

If you would like your company to be recognised for outstanding achievements in one of the following categories, simply follow the instructions below. Any company operating within the energy harvesting and storage market is welcome to apply.

**You can enter one or both of the following categories:**

### **Best Technology Development of Energy Harvesting**

This award will be given to a company which has launched a new product based on energy harvesting (in the last 24 months, April 2007 – April 2009) and is in the process of bringing it to market. The category will be assessed on the technical development of the product, its potential market, and benefits it brings over alternatives.

### **Best Application of Energy Harvesting**

This is the award given to an actual commercial success with an end-product using energy harvesting (in the last 24 months, April 2007 – April 2009). Judges will look for success in terms of products sold and revenues generated.
